

HABITATS

NAME: _____

Draw a line from each feature to the place where it would work best

NGSS Science. 2-LS4-1, 3-LS4-3

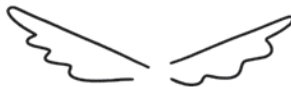

FOREST

Eyes for seeing at night

Eyes with underwater lenses

Wings for flying through trees

Wings for swimming

Webbed feet for paddling

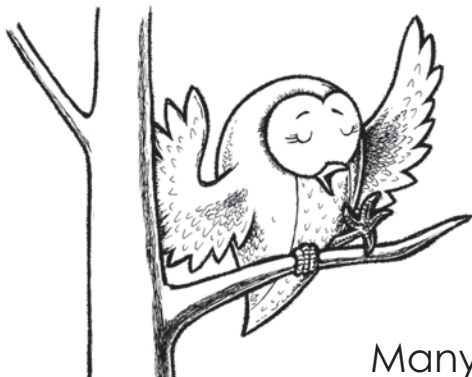

Talons for grabbing

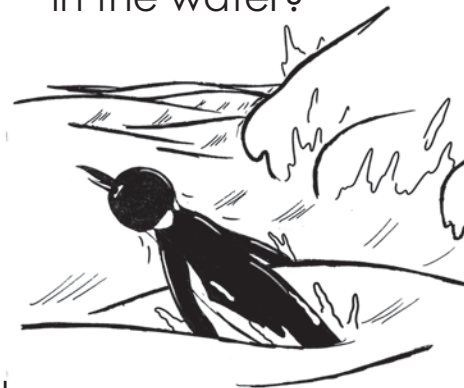

OCEAN

Why is the owl in a tree?

Why is the penguin in the water?

ADAPTATION

Many animals have developed features to help them survive where they live. Owls have special eyes to help them see in the dark. Penguins have a coating on their feathers to help them swim.
